

1 **ABSTRACT OF THE DISCLOSURE**

2 A neon light includes a cover and a rope light. The cover is composed of a milky
3 colored U-shaped cover and a base connected to the U-shaped cover. A ledge is formed
4 on two free sides of the U-shaped cover to correspond to two ribs formed on two upright
5 side walls on a top face of the base. An arcuate seat is formed between the two side walls
6 to receive thereon the rope light. Two end caps are provided to seal two open ends
7 defined by combination between the U-shaped cover and the base.
